

290w photovoltaic panel specifications

What is a 290W solar panel?

It is perfect for energy hungry applications as multiple panels can be joined together to create a solar array. The 290W panel is ideal use on a motorhome roof or the cabin of a boat to maximise power output in the space available.

How many watts can a 290W panel produce?

Suitable for both flat surfaces as well as those with a slight curve, the 290W panel delivers up to 1740W per day and comes with a four year warranty. The panel is supplied with 2 x 90cm cables with MC4 connectors plus an extra 2 x 3m cables with male/female MC4 connectors and user manual....

What is a 290W mono high density flexi solar panel?

Manufactured using the latest solar cell technology to create super efficient power generation, the 290W Mono High Density (MHD) Flexi solar panel is hard wearing and ultra lightweight. It is perfect for energy hungry applications as multiple panels can be joined together to create a solar array.

Can a 290W panel be used on a boat?

The 290W panel is ideal use on a motorhome roof or the cabin of a boat to maximise power output in the space available. Suitable for both flat surfaces as well as those with a slight curve, the 290W panel delivers up to 1740W per day and comes with a four year warranty.

What is a PV logic MHD solar panel?

With power ratings up to 290W, our MHD solar panels fulfil a variety of energy needs ranging from a continuous trickle feed of power to prevent battery drain in caravans, motorhomes and boats to creating energy self-sufficiency for off-grid travel. For more information about what sets the PV Logic MHD range apart from other solar panels [click here](#).

Solar modules must also meet certain mechanical specifications to withstand wind, rain, and other weather conditions. An example of a solar panel datasheet composed of wafer-type PV cells is shown in Figure 1.. Notice that the datasheet is divided into several sections: electrical data, mechanical data, I-V curve, tested operating conditions, warranties and ...

SN 60-cell 290W is a wonderful monocrystalline panel for your home, boat or an RV. Great design of a module makes it look stylish anywhere you decide to put it. 60 cells are protected by an anodized aluminium frame. The manufacturer offers the panel of a standard durability and an enhanced one. Features: 290W Power output; 17.75% efficiency

Understanding the technical specifications is crucial when evaluating a 290 watt solar panel: Peak Power (Pmax) : The 290 watt designation refers to the maximum power output under ideal conditions. Voltage and ...
