705W photovoltaic panel maximum power

High power up to 705W Large area cells based on 210 mm silicon wafers and half-cut cell technology

Features: Module efficiency up to 21.3% Less energy loss caused by shading due to new cell string layout and lower cell connection power loss due to half-cell design More power output in weak light condition such as cloudy, morning and sunset Reliable quality leads to a better sustainability even in harsh environment Lower operating temperature and temperature coefficient increases ...
