

9v10w solar water pump

What is the AquaJet 9V Pro solar pump?

The AquaJet 9V Pro is a solar pump kit made by Silicon Solar. It combines the power of the sun with an integrated backup battery system, allowing your water feature to run into the evening. This pump is adjustable and suitable for most home projects.

What is a solar water pump kit?

The Solarriver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance, a solar-powered water pump is what you should look for. It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.

How to use a solar water pump?

The Sunsbell Solar Water Pump is ideal for a garden patio or pond. It comes in with a 3 m long cable and 4 different nozzle heads. It's very easy to use- just immerse the pump under water, place the panel under full sunlight and it will start automatically. Besides, the beautiful waterfall will give your garden a unique, special look.

Does a poly solar panel kit have a submersible well pump?

The Poly Solar Panel Kit has a 12 V submersible well pump. It's ideal for bigger applications, such as farms, irrigation or camping sites. The pump benefits from the highest engineering design, since it can be submersed up until 30 meters underwater without any problem.

What is the power source of the AquaJet 9V Pro?

The AquaJet 9V Pro solar pump kit combines both the power of the sun and its integrated backup battery system designed to keep your water feature running into the evening. Bring your backyard to life with the exclusive AquaJet 9V Pro solar pump kit made by Silicon Solar.
