Solar Street Lights . Solar street lights are elevated light sources which are powered by photovoltaic panels mounted in a pole. These panels are used in charging a rechargeable battery. This electricity is used to power an LED lamp or a fluorescent lamp. Solar panels sense outdoor light source and turn on or off according to the surrounding.

As one of the premier Dubai Solar Street Lights company our reach and expertise is unparalleled. We offer a great selection of solar street lights in Dubai, Abu Dhabi, UAE and Middle East, most of which can be used for streets, parking lots, sidewalks, parks and general area lighting.
