

Bamako container generator

What are the different types of containerized diesel generator sets?

The containerized diesel generator sets produced by Dingbo Electric Power are divided into standard and silent types, using a standard container structure box with built-in diesel generator sets and dedicated complete sets of equipment and accessories.

Why should you choose a container diesel generator set?

3. Convenient transportation and cost saving. The appearance of the container diesel generator set is in the standard size of a container, and there is no need to book a dedicated container space during sea transportation, greatly saving transportation costs. 4.

What are the performance characteristics of container diesel generator sets?

Performance characteristics of container diesel generator sets: 1. The box adopts a humanized design, with doors on both sides and built-in maintenance lights for easy operation and maintenance. 2. Flexible and versatile in size, with strong environmental adaptability.

What are containerized generator / packaged container and enclosure options?

Containerized generator / Packaged container and enclosure options provide alternatives to installations in existing or new buildings. We have significant experience with pre-packaged container and enclosure solutions for engine-generator sets, balance of plant equipment, and switchgear.

Who is dingbo generator?

Since 1982, Dingbo Generator has been a generator set manufacturer qualified by the "National Internal Combustion Engine Quality Supervision and Inspection Center". The product quality has passed the ISO9001 quality system standard certification. And obtained the qualification certificate for self-operated import and export.

Why do you need a pre-packaged generator?

Pre-packaged containers and enclosures can simplify and expedite installation time, provide sound attenuation and personnel protection inside buildings, and provide weather protection for outside installations. Unified Power offers containerized generator sets with CHP and Emission control system.

CIMC TLC|RYC Generator Container is a special container tailored to the generator sets, as well as the design and installation requirements of the in-box auxiliary system. It is mainly composed of cabin, controller system, exhaust equipment, radiator group, noise reduction components and auxiliary systems.
