

Basseterre outdoor power supply brand recommendation

Can a Bluetti power station withstand water?

The Bluetti Elite 200, for example, has an IP65 rating, which means it can withstand water sprays from all angles. However, other portable power stations do not have a weather rating, so it's important to check if you plan on using your power station outdoors.

Which battery is best for a portable power station?

These days most portable power stations, including all those we recommend here, use LiFePO4 batteries, which are capable of holding far more cycles, which is the number of times a battery goes through a complete discharge and recharge, than older lithium-ion batteries while also being less likely to combust.

What spec should you consider when buying a power station?

Whatever the reason you are purchasing a power station, the most important spec to pay attention to is watt hours, which is a measurement of how much energy the power station can hold. While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story.

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Ugreen. [What to Know Before Purchasing a Portable Power Station](#)

Does a power station have ingress protection?

Some power stations have ingress protection (IP) ratings, indicating they have been tested for water and dust resistance. The Bluetti Elite 200, for example, has an IP65 rating, which means it can withstand water sprays from all angles.

What is the IP67 rating for a portable power station?

This unit has a rating of IP67, which is beyond impressive for a portable power station. Ingress Protection (IP) Testing is conducted by a third party to evaluate how well a product protects against dust and water. The first digit represents its dustproof rating, and the second digit represents its waterproof rating.

Doing away with bulky, fuel powered generators, the EcoFlow River is a smarter way to power up outdoors. Rugged and efficient, this portable power supply was made for camping. Designed with a built-in handle, the River is easy to transport and can be charged via car port, wall outlet, or solar power.
