

Chinese leadership recently held a group study session on quantum science and technology, impressing the country's scientists a lot.

Chinese scientists unveiled a quantum computer prototype named "Jiuzhang 3.0" with 255 detected photons on Wednesday, once again pushing the boundaries of photonics quantum computing technology.

1014,??(Nature Photonics,38.77)"Synthetic Helical Dichroism for Six-Dimensional Optical Orbital Angular Momentum Multiplexing"?

A volunteer team made up of more than 20 foreign sci-tech experts was set up in Xiamen, Fujian province on August 25. The team received verification letters of their certified ...
