What is an uninterruptible power supply (UPS)?

An Uninterruptible Power Supply (or UPS) does exactly that, protects your equipment in a catastrophic event such as severe weather. In Australia we know how common blackouts and brownouts can be, especially during the summer. If you find yourself in this situation, you can expect an UPS to kick in so you can continue running at full speed.

Which combination inverter & ups should I Choose?

If your power supply has frequent problems we recommend the combination inverter and UPS from Su-Kam. Su-kam is manufactured in India where the power supply is very unreliable and in places they lose power from the grid for a number of hours every day and these models are recommended for rural properties.
