

Dominican Standard Photovoltaic Folding Container Wholesale

What is a folded solarcontainer?

Folded Solarcontainer is compact and easy to off-load and unload. By removing all outer structural parts we ensure total panels exposure (no shades). Solar panels lay flat on the ground. This position ensures maximum energy harvest. System ensures fast retraction time making it safe in all weather conditions.

What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Folded Solarcontainer is compact and easy to off-load and unload. By removing all outer structural parts we ensure total panels exposure (no shades).

How many households can a solar Container Supply?

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly electricity. At a location in Southern Europe it can even be up to 50 households due to the high solar radiation.

What is a mobile photovoltaic system?

That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. This system is realized through the unique combination of innovative and advanced container technology.

Why should you choose a solarcontainer?

the lack of important resources. Solarcontainers have a tailored system with a mobile structure and easy assembly solution which makes it superior over similar current solar solutions. The base of the Solarcontainer is a solid floor frame with the length and width of a 20' HC container.

Detachable Container House is a 6000*3000*2800 meter container house, which is suitable for the construction site in China. It is the first choice of cargo container house on construction sites. Its advantages are convenient for transportation and installation, beautiful appearance, generous, max stack 3 floors, and excellent seismic performance.
