

Equatorial Guinea plans energy storage project

Does Equatorial Guinea support exploration?

Equatorial Guinea's commitment to advancing exploration is a testament to its strategic vision, and the AEC fully supports these efforts," states Tom's Gerbasio, VP Commercial and Strategic Engagement, African Energy Chamber.

Why do we need new acreage in Equatorial Guinea?

With the global energy landscape evolving and production from mature fields declining, the promotion of new acreage is essential to ensuring long-term energy security and continued revenue generation for Equatorial Guinea.

Does Equatorial Guinea invest in hydrocarbons?

Under the leadership of Minister of Mines and Hydrocarbons, Antonio Oburu Ondo, Equatorial Guinea has demonstrated a proactive approach to fostering investment in its hydrocarbon sector.

How many blocks are available in Equatorial Guinea?

Equatorial Guinea's last licensing round, held in 2019, offered 27 blocks for exploration and attracted significant industry interest, with 53 companies participating and 17 bids submitted. Blocks available in the upcoming round will include Block H and Block 02, previously operated by Atlas Oranto Petroleum and PanAtlantic Energy (Vanco Energy).

Will Equatorial Guinea launch new licensing opportunities in 2025?

Equatorial Guinea plans to launch new licensing opportunities in 2025 as part of its efforts to attract investment, boost exploration and ensure long-term energy security. Equatorial Guinea is taking decisive steps to revitalize its upstream sector, with plans to launch a new licensing round in 2025 aimed at increasing exploration and production.

Guinea's hydropower potential is estimated at over 6,000MW, making it a potential exporter of power to neighboring countries. The largest energy sector investment in Guinea is the 450MW ...

Souapiti is the second hydropower project on the Konkoure river, situated 135km from Guinea capital city Conakry and 6km upstream of the completed Kaleta hydroelectric project. Once operational, the project will meet power demands in Guinea, as well as supply additional power to neighbouring countries such as Gambia, Senegal, Guinea Bissau ...

Located at the Port of Akonikien, the landmark regasification plant will enable the storage, transportation and distribution of liquefied natural gas (LNG) to the country's ...

Equatorial Guinea plans energy storage project

Equatorial Guinea is set to construct the first liquefied natural gas (LNG) storage and regasification plant in West Africa, advancing efforts to monetise gas resources through the creation of domestic gas-to-power ...
