

How much does a portable power bank cost

What is a power bank & how does it work?

There are tiny, lightweight power banks designed for a quick boost to your device's battery life and larger, high-capacity power banks for multiple charges. Some power banks also have special features like built-in flashlights, wireless charging or multiple USB ports so you can charge more than one device at a time.

What features should you consider when buying a portable power bank?

Pass-through charging is another feature to consider; with it, you can charge your device and a portable power bank simultaneously. That's convenient if both your phone and backup battery are running on empty.

How much does a power bank cost?

The models in our power bank reviews range in price from \$15 up to \$170. While you can buy power banks for under \$30, these cheaper models are generally under 3000mAh, so you'll only get one charge out of them at a time (if you're lucky). Plenty of the power banks we recommend are under \$100, so you don't have to spend top dollar to get a good one.

Can a power bank charge a device?

A few things need to match up in order for a power bank to charge your device. For starters, the power bank's output needs to meet the requirements of the device you want to charge. Smartphones can charge off a small current, tablets require more, and laptops and handheld consoles require more again.

Should you buy a portable battery or power bank?

Watching your phone or tablet steadily run out of power when you're nowhere near an outlet is stressful. But there's an easy solution: a portable battery or power bank. These are available in many sizes and capacities and can include handy features like fast charging and extra ports.

How long does it take a power bank to charge?

Most power banks can charge a standard 3000mAh device, such as a smartphone, in a few hours. The power bank's recharge time isn't as much of an issue, as you can leave it plugged in overnight, but faster is generally better. A few things need to match up in order for a power bank to charge your device.
