Where do electricity companies buy electricity in Europe?

Most electricity companies in Europe buy electricity on a common market place, such as Nord Pool. All power plants that produce electricity and electricity companies that supply electricity to homes and businesses meet there. Based on supply and demand, prices are set for each hour and each area, one day in advance.

Are power outages common in Greece?

Power outages are not uncommon in Greece. They occur in particular in the summer because of air conditioners that run at full blast, and winds that can be violent in winter, which can damage electrical equipment. If your heating is electric, don't be surprised at your winter electricity bill.

How to get electricity in Greece if you don't speak Greek?

In Greece it is possible to connect directly online via your personal account. If you don't speak Greek, most of the suppliers' websites are fortunately translated into English. If you are a tenant in your new home in Greece, it is very possible that your landlord will decide to keep the electricity bill in his name.

Should I Turn On my electricity if I move to Greece?

Turning on your electricity is one of the most important procedures when moving to a new country, such as obtaining your Greek tax number (AFM). Fortunately opening an electricity contract in Greece is not complicated and you will be able to live in your new home very quickly.

The price of electricity in Greece is cheaper than the European average, even if the country is facing a huge price increase in 2022. The rate of your bill will depend on the supplier and the offer you choose to subscribe to.
