

# Hungary Pecs Energy Storage Solution

How will Hungary support large-scale electricity storage projects?

Hungary aims to support the installation of 800MW (1,600 megawatt-hours) of large-scale electricity storage projects through the scheme. "This EUR1.1 billion Hungarian measure will facilitate the development of electricity storage capacity.

Where will Hungary's largest energy storage system be built?

With funds obtained through a previous program, transmission system operator MAVIR is already building the country's largest energy storage system - a 20 MW project in Szolnok, central Hungary, the ministry said. It added that several projects with even bigger capacity will be installed under the tender concluded a few days ago.

Who will build Hungary's largest energy storage facility in Szolnok?

Forest Vill Ltd. will build Hungary's largest energy storage facility in Szolnok on behalf of MAVIR Ltd. The Budapest-based company will design and fully implement a 20 megawatt energy storage facility with a capacity of 60 megawatt-hours as part of the HUF 8.5 billion project.

Will Hungarian energy storage projects get subsidy support?

The Hungarian Ministry of Energy has announced that around 50 grid-scale energy storage projects with a cumulative capacity of 440 MW have received subsidy support through a tender launched in February this year.

Does Hungary need a state aid energy storage scheme?

The national funding will support the installation of 800MW of large-scale electricity storage. Hungary seeks to increase storage capacity in order to offer greater grid flexibility. Credit: Dorothy Chiron via Shutterstock. The European Commission has approved a EUR1.1bn (\$1.2bn) state aid energy storage scheme from the Government of Hungary.

Why is EU funding 800MW of energy storage in Hungary?

The EU has approved a \$1.2bn state aid funding package for 800MW of energy storage in Hungary as the country seeks to up its renewables.

Forest-Vill Ltd. was established in 2015 with the aim to build a Hungarian company which is capable of providing unique solutions and high-quality services in the field of design and construction of electrical and energy installations and related project management. ... Energy Storage Business Unit Director. P&#225;l Borb&#233;ly. Director of Tendering ...
