

What is an uninterruptible power supply (UPS)?

All of these devices are considered to be in the same category of integrated chips, typically categorized as power management devices. An uninterruptible power supply (UPS) is an electronic device that supplies emergency power in the event of a power fault or power failure.

How much is the global uninterruptible power supply market worth?

The global uninterruptible power supply (UPS) market held a value in the range of \$10.5 billion to \$11.0 billion in 2018. On top of that substantial market revenue pocket, the value of the uninterruptible power supply market is estimated to grow at a steady CAGR ranging from 3% to 5% during the forecast period of 2019 to 2025.

What are the challenges faced by the uninterruptible power supply market?

The most common challenge that the uninterruptible power supply market is expected to face is power shortage. The UPS system vendors often face problems related to scarcity of power which affects the power-dependent operations. The issue of voltage surge is also one of the challenges in the UPS system.

Does Mouser sell power supplies?

Mouser is an authorized distributor for many power supply manufacturers including Artesyn, B&K Precision, Bel Power, Cosel, CUI Inc., Keysight, MEAN WELL, TDK-Lambda, Vicor, XP Power & more. Power supplies are devices or hardware that convert or transform electrical input into electrical output.

What are the key players in the uninterruptible power supply market?

Some of the key players in the uninterruptible power supply market are: - APC-Schneider, Legrand, Socomec, ABB, Eaton Corp, Vertiv, General Electric, Delta Electronics, Reillo UPS, and Huawei. The base year of the study is 2018, with forecast done up to 2025.

How is the uninterruptible power supply market segmented?

The uninterruptible power supply market can be segmented on the basis of power rating into 0-5 kVA, 5-50 kVA, 50-100 kVA, 100-500 kVA, and above 500 kVA. On the basis of topology, it can be classified into standby, line interactive, and online.

An uninterruptible power supply (UPS) is an electrical device that filters your incoming power and protects your equipment from spikes, dips, surges, high/low voltages and blackouts. ... Since our inception, we have set up sales, service, repair and maintenance divisions throughout Southern Africa to offer our customers all-encompassing and ...
