Export Limitation System for Grid Connected Solar Inverters 1. As the Energy meter is located at the grid connection point, a power failure would naturally isolate the PV system through standard G98/G99 methods. 2. If the Energy meter itself were to fail, the RS485 communications would be lost and the

India's government has increased basic customs duty (BCD) on solar inverters as part of efforts to bolster domestic manufacturing but has excluded modules from any changes.
