

# Panama Colon Power Storage

What is the largest power plant in Panama?

The power generation capacity of Colon CCPP--380MW--is the largest in Panama. The plant is located in Colon, which lies near the Atlantic entrance to the Panama Canal and is about 60km north of Panama City, the capital of the country. POSCO E&C will also construct a gas terminal with a storage capacity of 180,000m<sup>3</sup>.

How will POSCO E&C's Colon power plant work?

POSCO E&C will also construct a gas terminal with a storage capacity of 180,000m<sup>3</sup>. Power produced from the Colon combined cycle power plant can be supplied to around 15 million households simultaneously, which will ensure a stable supply to the industrial complex near the Panama Canal and Colon area.

What is a natural gas terminal in Panama?

The terminal was developed in conjunction with the adjacent AES Colon power station, a 381 MW combined cycle power plant. In 2012, Panamanian President Ricardo Martinelli signed a law that would increase the role of natural gas in Panama's economy.

Where is the Colon multi-thermal power plant project located?

(Photo:POSCO E&C) POSCO Engineering and Construction Co. (POSCO E&C) kicked off the construction of the Colon Multi-Thermal Power Plant Project in the Telfers Industrial Complex in Colon Province, Panama, in a ceremony on April 27 at the complex.

What is the role of natural gas in Panama's economy?

In 2012, Panamanian President Ricardo Martinelli signed a law that would increase the role of natural gas in Panama's economy. The law provided incentives for the promotion of natural gas projects that supply local power plants for energy generation, increasing the likelihood of new natural gas project proposals in the future.

Who shovel Earth at the Colon multi-thermal power plant?

A slew of dignitaries including Panamanian President Juan Carlos Varela, Chairman Ricardo Glukis of AES Panama Co., and President Han Chan-keun of POSCO E&C shovel earth to kick off the construction of the Colon Multi-Thermal Power Plant in a ceremony held on April 27 in the Telfers Industrial Complex in Colon Province, Panama. (Photo:POSCO E&C)

The project is scheduled to be completed in July 2018 for the thermal power plant and in May, 2019 for LNG storage tanks, the company said. ... Several competing LNG-import terminals have been proposed, on Telfers Island in the Caribbean Sea, at Panama Colon Container Port and at Puerto Pilon in Colon. The Panama Canal Authority (ACP) has just ...

The Telfers complex is located some 60 km from Panama City, on the Atlantic side of the Panama Canal and the project calls for the construction of LNG thermal power plants ...
