

Papua New Guinea Portable Power Supply Customization

What is the Papua New Guinea regulation for small power systems?

On Monday April 11, 2022, the final version of the Papua New Guinea Regulation for Small Power Systems was handed over to the National Energy Authority (NEA) by United Nations Development Programme to facilitate the promotion of access to affordable clean energy.

Can I use power plugs in Papua New Guinea?

Select your country of residence, to check the compatibility of your power plugs in Papua New Guinea. In Papua New Guinea, power plugs and sockets (outlets) of type I are used. The standard voltage is 240 V at a frequency of 50 Hz. For more information, select the country you live in at the top of this page.

Does Papua New Guinea have a 'small power system'?

Papua New Guinea has set a target for 70% of its households with access to electricity by 2030 and the 'Small Power Systems' sets the foundation to achieving this target. The United Nations Sustainable Development Goal 7 (SDG 7) calls for "affordable, reliable, sustainable and modern energy for all" by 2030.

Why is electricity so important in remote areas of PNG?

Having a reliable electricity supply is essential for modern life and development. In remote areas of PNG this can be a challenge and it isn't always easy in town either. Lohberger engineering had its genesis in energy supply. We have been supplying electrical generation equipment since the company began in Port Moresby five decades ago.

Why should you choose the best equipment in PNG?

Harsh conditions require equipment made to endure the rigours applied to them. In PNG only the toughest survive. That is why we have partnered with the best brands to ensure a quality product and we back this up with unprecedented service.
