Puma Energy would like to thank the police for ensuring jet fuel was transported safely to Pacific Energy Aviation's (PEAL) airport storage facility in Port Moresby last week. Last week's unrest in the Nation's Capital halted most services in the city. Puma's fuel facilities were temporarily closed last week as well.

Our refrigeration solutions include but are not limited to ammonia systems and Co2 systems, container refrigeration and advice and replacement of non-compliant refrigeration systems to meet PNG law and corporate obligations. Supercapacitors are energy storage devices that store energy through electrostatic separation of charges. Unlike batteries, which rely on chemical reactions to store and release energy, supercapacitors use an electric field to store energy. This fundamental difference endows supercapacitors with several unique properties. Key Terms and Definitions
