I have had a lot of power outages and some brownouts lately, so I want to get a UPS to protect my Synology NAS. Many in the past have pointed to APC as the standard, but looking at the reviews of their recent products is scary as hell (catastrophic failure within the first year resulting in ruined equipment, smoke, and the smell of burning plastic). I know social ...

SomatXR UPX002: Rugged Uninterruptible Power Supply (UPS) In mobile data acquisition, measurement modules are often supplied by the vehicle battery. The UPS can be used to prevent abnormal termination of a measurement, as the result of a voltage drop or power outage.

An Uninterruptible Power Supply (UPS) is an electrical device providing emergency power during outages. It instantly switches to battery power when mains electricity fails, protecting connected equipment from data loss or hardware damage. UPS systems vary from compact desktop units to industrial-scale systems, using technologies like standby, line ...

PS& C developed our Portable Latrine Facility (PLF) for international organizations that must meet OSHA regulations. According to OSHA, "Toilet facilities must be available at ever worksite, with the exception of sites of mobile work crews. Employees in mobile work crews must have transportation readily available to toilet facilities "nearby." Agricultural workers must have toilet ...
