

Tashkent Outdoor Energy Storage Equipment Company

Will Uzbekistan develop a battery energy storage system?

UAE-based renewable energy company Masdar has expanded the scale of an agreement with the government of Uzbekistan to develop battery energy storage systems (BESS). A joint development agreement (JDA) was signed between the pair in May 2023 for 2GW of wind energy and 500MWh of battery storage, as reported by Energy-Storage.news at the time.

What is Uzbekistan's First Energy Storage Project?

Installed with Sungrow's cutting-edge liquid-cooled ESS PowerTitan 2.0, this facility marks Uzbekistan's first energy storage project and stands as the largest of its kind in Central Asia. The project will play a pivotal role in driving the region's energy transition forward and setting a sustainable precedent.

Does Masdar have a battery energy storage system in Uzbekistan?

Image: Masdar. UAE-based renewable energy company Masdar has expanded the scale of an agreement with the government of Uzbekistan to develop battery energy storage systems (BESS).

Why is Uzbekistan launching a more market-oriented electricity sector?

In addition, Uzbekistan heads to establish a more market-oriented electricity sector, with a new electricity legislation enacted last July. The introduction of energy storage projects provides greater supply security and helps mitigate the intermittency of renewable generation.

The European Bank for Reconstruction and Development (EBRD) will provide up to US\$229.4 million to ACWA Power to develop a 200MW/500MWh solar-plus-storage project in Uzbekistan. Due to be built in the eastern Tashkent region, the projects are owned by ACWA Power Riverside Solar, a special-purpose company owned by Saudi energy giant ACWA Power.

Let's face it - when you think of renewable energy hubs, Tashkent might not be the first name that pops up. But this Central Asian gem is rewriting the rulebook with projects like the 500MWh battery storage facility in its suburbs[3][6]. With solar irradiation levels that make Arizona look cloudy (we're talking 300+ sunny days annually)[10], Uzbekistan's capital is storing sunshine ...
