An uninterruptible power supply (UPS) is an electrical device that provides emergency power backup using batteries, supercapacitors, or flywheels when the input power source fails. It is an abbreviation for uninterruptible power supply or uninterruptible power source, which has a relatively short run-time but is sufficient to start a standby ...

SuperCaps UPS are uninterruptible power supply systems using supercapacitors to store energy instead of traditional batteries. An intelligent control system allows more than one million charge cycles of these supercapacitors. SuperCaps UPS are ideal for installations in critical applications that are sensitive to short power interruptions.
