

Universal portable power bank

Does the powerpack Universal Pro have a USB-C cable?

One of the biggest upgrades to the PowerPack Universal Pro is the built-in 65W USB-C cable. Powerful enough to charge all USB-C compatible devices including laptops. Our first and only power bank equipped with the power to charge your laptop on the go, experience true convenience with portable laptop charging.

What features should you consider when buying a portable power bank?

Pass-through charging is another feature to consider; with it, you can charge your device and a portable power bank simultaneously. That's convenient if both your phone and backup battery are running on empty.

How much power does a USB-C Power Bank have?

This power bank has a built-in rotating USB-C or Lightning connector (MFi certified), so you don't need to worry about cables. It packs 5,000 mAh of energy (enough to fully charge most phones). I tested the USB-C version with several Android phones and found it stayed in place, enabling me to use my phone more or less as normal.

How do power banks compare?

We also compare power banks based on their power-to-weight ratio, which tells us how much battery life you get for the extra weight you're forced to carry. We've got power banks for power users that give you detailed information about the devices you're charging, or simple magnetic power banks that smile while your iPhone charges.

Which power bank is best?

All of the power banks on this list passed our testing, traveling with us on the road and powering our devices at home. Anker is the best in part because it packs more power into its batteries at a lower weight. Its batteries charge faster than competitors. Its small Anker Nano battery has the best power-to-weight ratio of any battery on our list.

How many devices can a powerpack universal charge?

The PowerPack Universal has the ability to charge up to 5 devices at the one time when plugged into the power outlet. However, the maximum output is 22.5W, the more devices that are charging at the same time, the less power each individual device will receive.
