

# Waterproof large capacity outdoor power supply

What is the best waterproof power bank?

As you can see from the chart below, an IP68 would be the highest possible rating. However, most of the best waterproof power banks are rated to IP67, which is more than enough protection for rugged outdoor use.

How much Mah is a waterproof power bank?

The massive 30,000 mAh is enough for up to 13 full charges of most smartphones and is so powerful that it can be used with laptops and portable gaming devices. If you need a waterproof power bank to use outdoors and last for multiple days at a time while still charging all your gadgets, this is 100% the one to get.

Is dark energy Poseidon waterproof power bank a good choice?

The Dark Energy Poseidon Waterproof Power Bank is our number one choice for traveling because of the fact that it is almost indestructible. With the highest possible IP rating, you can be sure that this portable battery pack will work no matter where you take it.

Are Anker power banks waterproof?

Anker power banks are not waterproof and nor do they claim to be. The casing is made from waterproof materials but does not have a waterproof construction. Water can get in through the joints and the charger input, so it won't fare well if submerged. If you spill water on it or it gets a little bit wet in the rain though, you should be ok.

How many times can a waterproof power bank charge a smartphone?

With the 20,000 mAh capacity, you can expect to charge any smartphone at least five to seven times as well as being big enough to charge iPads and tablets up to two times. There are a few things to take into consideration when choosing the best waterproof power bank for you, and it is not always clear what they mean.
