For businesses seeking extra resilience and uninterrupted power supply, we offer an optional integration of Uninterruptible Power Supply (UPS) functionality into our BESS solutions. Product. BESS With Integrated UPS. BESS Without Integrated UPS. Power Range. 50 kW - 10 MW. 50 kW - 10 MW. Capacity Range.

UPS (Uninterruptible Power Supply) A UPS (Uninterruptible Power Supply) is a battery-powered backup system that provides instant power during outages or voltage fluctuations. Unlike traditional backup generators, a BESS-based UPS offers seamless, reliable energy for critical loads, preventing downtime and damage from power disruptions.

Figure 1: A simplified project single line showing both a battery energy storage system (BESS) and an uninterruptible power supply (UPS). The UPS only feeds critical loads, never losing power. The BESS is bidirectional, stores and supplies energy, but loses power when the utility is lost before it can restart in island mode after opening the ...

The Uninterruptible Power Supply (UPS) has quickly become part-and-parcel of life in South Africa. Since the first announcement of "load shedding" in 2008, UPS systems have been adopted into many households. The devices protect valuable electronics from electrical surge/outage damage and have saved families from countless headaches.

Though the lack of a USB port limits the versatility of this model, we still highly recommend the Back-UPS
