

# Which outdoor power supply has the largest stock

What is the market share of outdoor power equipment in 2021?

The North American market accounted for 34.91% share of the overall market in 2021. The regional market's growth is attributed to North America's larger geographical area compared to its population, which leads to more gardens and lawns in the region. This led to increased demand for outdoor power equipment in the region.

What is the global outdoor power equipment market size?

The global outdoor power equipment market size was USD 46.53 billion in 2021 and is expected to reach USD 76.61 billion by 2030, expanding at a CAGR of 5.9% from 2022 to 2030. The market growth can be credited to increasing demand for cordless outdoor power equipment as people are inclining more toward greater flexibility and portability.

Why is the cordless outdoor power equipment market growing?

The market growth can be credited to increasing demand for cordless outdoor power equipment as people are inclining more toward greater flexibility and portability. To learn more about this report, request a free sample copy
