What is UPS (Uninterruptible Power Supply)? UPS is an abbreviation for Uninterruptible Power Supply, and its name comes from the fact that it provides a continuous supply of power without interruption. It draws current from the mains in normal operation and from its backup source during a power outage.

An uninterruptible power supply, or UPS, is basically a surge protector, battery, and power inverter--which turns the battery's stored energy into usable power--wrapped into one unit ...
